Analysis of Regional Differences in Deaths.” // The Collection of the Seventh National Census Scientific Symposium in China, China Statistics Press. (in Chinese)

PROFESSIONAL ACTIVITIES (PI)

1. **Project for the Social Science Fund of Fujian Province (Youth Project):** “Dynamic Evolution, Impact Mechanisms, and Intervention Strategies of Healthy Life Expectancy in the Older Population.” (July 2026 to Sep. 2029, Project No. FJ2026C220)
2. **Project for Fuzhou University (Research Start-up Project):** “Evolution of Healthy Life Expectancy in China and Its Determinants.” (Nov. 2025 to Nov. 2027, Project No. 511688-XRC202529)

PROFESSIONAL ACTIVITIES (Participate)

1. **Project for the National Health Commission of P.R. China:** “Research on Governance of the Health Transition Matrix Database,” led by Li, T. of Renmin University of China.
Work Content: Construct a health transition matrix database for different population groups in China. (Aug. 2025 to Dec. 2025)
2. **Project for the National Health Commission of P.R. China:** “Research on Reconstruction and Classification of Provincial Life Table”, led by Li T. of Renmin University of China.
Work Content: Build a database of continuous life tables for 31 provinces from 2015 to 2025. (Aug. 2024 to May 2025)
3. **Project for Li Auto Inc.:** “Parity-specific Family Projection”, led by Li T. of Renmin University of China.
Work Content: Reconstruction of Parity-Specific Historical Data and Population Projection for China, 2020–2050. (Sep. 2024 to Dec. 2024)
4. **Project for the National Health Commission of P.R. China:** “Manuscript for Life Expectancy Calculation”, led by Li T. of Renmin University of China.
Work Content: Revised Chapter II, “Working Process of Life Expectancy Calculation.” (Oct. 2023 to Nov. 2023)
5. **Project for the Statistics Bureau of Guangdong Province, P.R. China:** “Research on Population Aging and Health Insurance Continuation in Guangdong Province”, led by Wang J. of Harbin Engineering University.
Work Content: Developed the R package of Population Projection named [fastproj](#), and projected the income and expenditure of Guangdong health insurance. (May 2023 to June 2023)
6. **Project for the State Council Population Census Office of P.R. China:** “Study of Regional Differences in Mortality Levels in China and Preparation of Model Life Tables”, led by Li T. of Renmin University of China.
Work Content: Conducted a comprehensive assessment and correction of national infant and child mortality rates, analyzed and corrected regional mortality disparities across provinces. (Dec. 2021 to Apr. 2022)
7. **Project for China Women's Daily and ByteDance Ltd.:** “How Tiktok Stimulates Women's Economic Potential”, led by Li T. of Renmin University of China.
Work Content: Authored Part I and Part IV of the report. (Dec. 2021 to Mar. 2022)

PROFESSIONAL ACTIVITIES (Participate)

8. **Project for the National Health Commission of P.R. China:** “Marriage and Fertility Intention Survey of College Student in China”, led by Li T. of Renmin University of China. Work Content: Questionnaire design, sampling, data cleaning and report writing. (Oct. 2021 to Dec. 2021)
9. **Project for the Statistics Bureau of Foshan City, Guangdong Province, P.R. China:** “Population Development Plan for Chancheng District and GaoMing District (2020 - 2030)”, led by Huang C. of Guangdong South China Economic Research Institute. Work Content: Population projection utilized the Cohort Component Method based on Python and R software, and authored the technical documentation of the planning report. (July 2020 to Oct. 2020)
10. **Project for the Statistics Bureau of Shenzhen City, Guangdong Province, P.R. China:** “The 14th Five Year Plan (2020-2025) Project of Population Development in Dapeng District”, led by Wang J. of Sun Yat-sen University. Work Content: Population projection utilized the Cohort Component Method based on Python and R software, and authored Chapter II of the planning report. (June 2020 to Oct. 2020)
11. **Project for the Statistics Bureau of Shenzhen City, Guangdong Province, P.R. China:** “The Second and Third Industry Employment Population Report (2020-2025) Project of Shenzhen City, Guangdong Province”, led by Zheng Y. of Sun Yat-sen University. Work Content: Employed the Autoregressive Integrated Moving Average (ARIMA) model using R software to accurately forecast the employment trends in Shenzhen's second and third industries, and authored Chapters II, V, and VIII of the report. (May 2020 to June 2020)
12. **Project for the Statistics Bureau of Maoming City, Guangdong Province, P.R. China:** Population Development Plan for Maoming City (2020 - 2035), led by Wang J. of Sun Yat-sen University. Work Content: Population projection utilized the Cohort Component Method based on Vensim and R software, authored Chapters I and II of the report. (Aug. 2019 to Dec. 2019)
13. **Project for Guangzhou Center for Youth Studies of Guangzhou, Hong Kong and Macao:** A Survey of the Current Situation of Youth in Guangzhou Municipal Government, led by Tu M. of Guangzhou Communist Youth League school. Work Content: Authored the internal government reference report. (Nov. 2019 to Dec. 2019)
14. **Project for Sun Yat-sen University Student Work Office:** “Survey on Students' Thought Dynamics and Development at Sun Yat-sen University”, led by Huang X. of Sun Yat-sen University. Work content: Questionnaire design. (Aug., 2019 to Dec., 2019)
15. **Project for the National Social Science Fund of China:** “Research on Western Qualitative Sociology Methodology (16BSH006)”, led by Wu S. of Harbin Institute of Technology. Work Content: Conducted a comprehensive collection of undergraduate sociology education curriculum programs across mainland China, performed an in-depth literature review on the cutting-edge developments in Grounded Theory. (June 2017 to June 2018)
16. **Project for the Department of Education of Heilongjiang Province, P.R. China:** “Provincial Undergraduate Major Pilot Assessment”, led by Sun J. of Harbin Institute of Technology. Work Content: Utilized SPSS software to create detailed evaluation charts and tables for a

PROFESSIONAL ACTIVITIES (Participate)

range of indicators. (Mar. 2017 to May 2017)

FELLOWSHIPS AND AWARDS

2026	Fujian Provincial High-Level Talent (<u>Class C</u>)	Department of Human Resources and Social Security of Fujian Province, P.R. China.
2025	Outstanding Graduate of Beijing (<u>Top 5%</u>)	Beijing Municipal Education Commission, P.R. China
2023, 2024	Merit Student (<u>Top 25%</u> , Twice)	Renmin University of China, P.R. China
2023	Second-Class Excellence Scholarship for Ph.D. (<u>Top 20%</u>)	Renmin University of China, P.R. China
2021, 2023	First-Class Scholarship (<u>Top 30%</u> , Twice)	Renmin University of China, P.R. China
2020	First-Class Scholarship (<u>Top 30%</u>)	Sun Yat-sen University, P.R. China
2016, 2017	Merit Student (<u>Top 10%</u> , Twice)	Harbin Institute of Technology, P.R. China

TRAINING EXPERIENCE & INTER SCHOOL COMMUNICATION

2023	<u>Workshop</u> : “Multidimensional and Multiscale Demographic Modeling for Environmental and Climate Change Scenario Development.”	ADRI & IIASA (Oct. 25 to Oct. 30, Shanghai, P.R. China)
2018	<u>Workshop</u> : “Big Data, Cloud Computing and New Methodology of Humanities and Social Sciences.”	Nanjing University (Jan. 17 to Jan. 22, Nanjing, P.R. China.)
2016	<u>Exchange Program</u> : College of Social Sciences.	National Sun Yat-sen University (Feb. 25 to June 30, Kaohsiung, Taiwan, China.)

TEACHING EXPERIENCE (Instructor)

- Undergraduate Courses:
Fundamentals of Probability and Statistics (2.5 Credit), Fuzhou University
Introduction to Social Policy (2 Credit), Fuzhou University
Applied Statistics with R (2 Credit), Fuzhou University

MENTORING (By graduation year)

- LL.M.: Wu Ping-Ping (2029)
- LL.B. : Xi Chu-Yu (2027), Zhang Meng-Meng (2027), Yang Shun (2026),
Qiu Zi-Cheng(2026)

PROGRAMING SKILLS

1. Programming: R, Python, SQLite, Vibe Coding
2. Econometrics: Stata, SAS, SPSS
3. Simulation: NetLogo (ABM), Vensim (SD)
4. Qualitative Analysis: Nvivo
5. Others: Git, Markdown, HTML & CSS, Hexo (Node.js Based Web Framework)

MEMBERSHIP

1. Chinese Sociological Association
2. China Population Association (**Committee Member of Population Statistics**)
